## EQUAL ADDENDS GRAB

Students take a handful of the same pattern block out of the bin. They count the number they have and grab the same amount of the same block. They line them up in two rows to pair them and find a total. Students record at least 4 drawings of the blocks, a number model, and whether the sum is even or odd on the worksheet

SAMPLE:

1

$$3 \text{ octagons} + 3 \text{ octagons} = \underline{6}$$

6 is even.  
(even or odd)

2

_____ + _____ = _____
_____ is _____.
(even or odd)

3

_____ + _____ = _____
_____ is _____.
(even or odd)

4

_____ + _____ = _____
_____ is _____.
(even or odd)
