

## Lesson Assessment

1. Fred is a candle maker. He can make 4 candles in 3 hours. How long will it take him to make 24 candles?
2. My mother loves to make spinach dip. She mixes 10 ounces of spinach with  $\frac{1}{2}$  cup of mayonnaise. The family reunion is coming and she wants to make a large batch of dip using 3 lbs of spinach. How much mayonnaise will she need? (16 ounces in a pound)
3. You need to buy peanuts for the party. Walmart has them for \$3.00 per pound. The corner store has them on sale for 3 pounds for \$10.00. Which store offers the better buy?
