[Toolkit for Teacher - PMIEF](#)

This online course is a facilitated experience that integrates the best practices of project-based learning with skills and tools for project management. The course will guide you through the Project Management Toolkit for Teachers, a resource that can be used with elementary, middle and high school students.

[Click here to find out about a scholarship incentive for those signing up early.](#)

[Student Engagement with One to One](#)

This course will introduce educators to highly effective instructional strategies in one-to-one learning environments, transforming current instructional units to better engage students by reworking unit content, redefining student work products and reflecting on teaching and learning processes.

[Mobile Devices for Teaching and Learning](#)

This blended-learning course will highlight how mobile devices can be used as powerful teaching and learning tools, build a data base of free, web-based tools and resources and helpful information about digital citizenship. While there are many legitimate concerns about using such devices in schools, it is important that schools prepare students for success in a world overflowing with information.

[eNet's Gift to You!](#)

If you enroll in any 2016 eNet course, we will automatically enroll you for *free* in our facilitated **2016 is Our Year to Get Organized** course. You may complete the course in 1 month or take up to a year. We hope you will enjoy collaborating with your colleagues as you share tips and strategies for becoming and staying organized.

[WINNER of the Golden Apple](#)

Congratulations to **Nichole Bansberg**, teacher at Academy School District who has won the Golden Apple post-it dispenser and set of six refill pot-it notes

[eNetLearning Course Options](#)

Planning for the new year? Take a course as a district group with your fellow teachers. You'll find lots of great resources and develop a great unit or project that integrates 21st century skills, while taking a course that's aligned to Colorado teacher effectiveness standards. We can offer any course for your district at a time that would fit your schedule.
