English Language Learners Course Titles: 30 hours (\$199) and 45 hour (\$299) options

- **Understanding the English Language Learner**- Selecting instructional strategies for your English language learners will make more sense when you understand how the brain learns language. Dive into current research with this course and learn how to translate what you learn into effective K-12 classroom practices for your ELL students. Based on the best-selling book by brain research expert David A. Sousa, this course provides the in-depth insight you need to overcome your ELL classroom challenges.
- **Co-Teaching for English Learners**- When general education teachers and EL specialists co-plan and co-deliver instruction in the classroom, nonnative speakers achieve greater success. In this course, you will learn practical, classroom-tested strategies for collaborating throughout the instruction cycle and discover effective classroom configurations to propel student learning. The techniques in this course offer something for everyone, whether you are new to co-teaching or looking to improve your practice.
- **Language Power: Adopting Academic Language Use as a Tool for Teaching and Learning** - No matter who your students are, no matter which discipline you teach, the research reads the same: school achievement depends upon effective communication. The purpose of this course is to help you build an understanding of key uses of academic language, and to provide you with rich classroom-based planning, instructional, and assessment strategies for promoting academic language use with all students, with special attention to multilingual learners who are English language learners. You'll hear from world-renowned educator Margo Gottlieb and see her recommended best-practices in action with video from real classrooms.
