Online, Blended, and Curriculum Support for Schools,
Teachers and Parents during COVID-19 and afterward

We know that the COVID-19 pandemic has caused ever-lasting changes to the way we teach. With that change, CDLS (Colorado Digital Solutions) and eNetLearning will continue to support all students enrolled in CDLS and eNetLearning online classes.

Both eNetLearning and CDLS will also be available to work with our partner districts and their staff to help them work with their students remotely and to develop an online platform if needed.

COVID-19 - eNetLearning and CDLS Support

CDLS believes it is important to support our partner districts. We know this unique situation will impact districts differently based on their size and access to local options so CDLS is willing to share its expertise and experience anyway that may be helpful, particularly in supporting small rural districts across the state.

To find out how we can support your school, please contact:

- danmorris@enetlearning.org
- carolyngardner@enetlearning.org
- jane@springshosting.com

Resources for Students, Parents, and Teachers: CDLS in partnership with eNetLearning and the Colorado BOCES has created two online "digital binders" of resources and activities that districts can share to support students, parents, and teachers during these closures. We want to thank those districts who posted and have shared these resources. The following "binders" can be accessed without any logins and can be embedded on district websites and copied. Please forward additional resources and we will add them.
