

OCTOBER

We need to provide our teachers and students a positive, safe, and engaging environment for teaching and learning. Explore and discover how to incorporate leadership skills and use various platforms (including Google in the Classroom) in preparation for meeting our ever-changing environment.

Because of the requests of many educators across the state, eNetLearning is now offering a brand new course.

"Transitioning to Remote Learning"

This course will provide you with strategies, tools, and helpful hints for teaching and learning in an online environment. This course is being provided free of charge through December 15th 2020.

Don't wait. Sign up now. We're here for you.

October Courses will help support all administrators and educators as you begin the new year with many challenges and new ways of guiding our students.

Online, Blended, and Curriculum Support for Schools, Teachers and Parents during COVID-19 and afterward

We know that the COVID-19 pandemic has caused ever-lasting changes to the way we teach. With that change, CDLS (Colorado Digital Solutions) and eNetLearning will continue to support all students enrolled in CDLS and eNetLearning online classes.

Both eNetLearning and CDLS will also be available to work with our partner districts and their staff to help them work with their students remotely and to develop an online platform if needed.

[CDLS can support districts in preparation for Fall](#)

The Governor provides \$5 million to \$6 million to go toward increasing the capacity of Colorado Empowered Learning, the state's existing supplemental online learning and blended program. [Click here for full information.](#)

Colorado Empowered Learning (CEL), administered by the Colorado River BOCES and working with CDE, Colorado Digital Learning Solutions (CDLS) and the iLearn Collaborative (iLC) provides ready-made online courses and teacher training to work in both online and hybrid models.

CDLS, working with CEL, has developed three options, based on existing available programs for remote/online learning support and professional development, to give school districts choices that provide their students access to online content and curriculum that can be supported locally in schools and online. Please click on any of the options to the right for information.

OPTION 1: [Supplemental Online Learning](#)

OPTION 2: [CO-TEACHING Expanded Options](#)

OPTION 3: [Access to Digital Content & Professional Development](#)

CDLS believes it is important to support our partner districts. We know this unique situation will impact districts differently based on their size and access to local options so CDLS is willing to share its expertise and experience anyway that may be helpful, particularly in supporting small rural districts across the state.
