Moving Ahead in the Fall

Issues and Trends in Today's
Educational Leadership

eNet Learning

Our New Course...

This course provides an interactive e-learning experience to support today's educational challenges. Participants will explore how to be a true leader who fosters a dynamic learning environment that leverages technology. You will explore examples of best practices, examine leadership behaviors, and develop strategies to be that leader. Extension activities will provide opportunities to explore in-depth topics of interest with other leaders.

It is our mission to provide our teachers and students with a positive, safe, and engaging environment for teaching and learning. Share this information with your colleagues. Are you needing professional hours for recertification or graduate credit to move over on your salary schedule? We can offer those to you.

We are working to add more new courses soon.

Colorado Digital Learning Solutions, supporting the state supplemental online program. Because of the always-changing piece of teaching, contact us to ask about our online courses and how they can benefit your school.

CDLS has increased its K-12 course options, all taught by licensed Colorado teachers, providing students and districts access to over 170 courses, including AP, Concurrent enrollment, and expanded CTE and STEM options. Second Semester courses are now available.

See: www.coloradodls.org for more details and a complete course catalog at: <https://www.coloradodls.org/courselist>

Contact Dan Morris at danmorris@coloradodls.org if you have questions or need additional information.

Both eNetLearning and CDLS will also be available to work with our partner districts and their staff to help them work with their students face-to-face or remotely and to develop an online platform if needed.

[Click here for full information.](#)
